

How to prepare to the exam

- § Review exam topics, goals ,themes and related weights in the EPG
- § Is your experience in the field enough to take the exam?
- § Evaluate and identify what it is that you (still) need to learn.
- § Examine the various topics in the supporting training outline and identify the larger themes and key information developed within it
- § Do you need training? For technical exams, contrast alternatives (HPSWED classes, ILTs, V-ILTs, WBTs)
- § (Technical Exams) Does a tutorial for the solution in scope exist? Use it to assess your skills and preparation status
- § For Sales Exams, Use Customer Facing Decks and Sales Enablement material
- § Review tasks and concepts in the key product documentation (technical) or in the appropriate Battle Cards (Sales)
- § Review additional study material as per the EPG suggestions
