## Why earn this certification:

HP is at an inflection point where our technology is coming together to help our clients build the data center of the future; and it will be based on a Converged Infrastructure. HP is accelerating innovation, with new standards-based solutions in every core area of the data center and beyond. These innovations deliver a new level of automation, simplicity, interoperability and integration to enable our clients to focus on meeting business demands.

The increasing demand for HP BladeSystem solutions creates an opportunity for HP channel partners to provide hardware support services to customers. The person who holds this APS certification is qualified to perform maintenance activities on HP BladeSystem equipment.

## Next level of certification:

AIS – HP BladeSystem Solutions [2010]
