Subject: daebu01: Event Monitor Notification

>------------ Event Monitoring Service Event Notification ------------<

Notification Time: Tue May 22 04:34:59 2012

daebu01 sent Event Monitor notification information:

/system/events/ia64_corehw/core_hw is >= 2.
Its current value is CRITICAL(5).

Event data from monitor:

Event Time..........: Tue May 22 04:34:59 2012
Severity............: CRITICAL
Monitor.............: ia64_corehw
Event #.............: 103003
System..............: daebu01

Summary:
    Power Supply : A/C source is lost.

Description of Error:

    The power supply has lost A/C source.

Probable Cause / Recommended Action:

    The power supply is not connected to a working AC power source. Verify
    that the plug is connected to the power supply, and to a working power
    source.

    For information on the sensor that generated this event, refer to FRU ID
    in Event Details section.

Additional Event Data:
    System IP Address...: 10.240.14.110
    Event Id............: 0x4fbb096300000000
    Monitor Version.....: B.01.00
    Event Class.........: System
    Client Configuration File...........:
    /var/stm/config/tools/monitor/default_ia64_corehw.clcfg

Client Configuration File Version...: A.01.00
Qualification criteria met.
    Number of events..: 1
Associated OS error log entry id(s):
    None
Additional System Data:
    System Model Number.............: 9000/800/rp4440
    EMS Version.....................: A.04.20
    STM Version.....................: A.66.00
    System Serial Number............: USE45152YV
