www.hp.com/go/support

For the ProLiant Supported OS Matrix please visit:
www.hp.com/go/supportos

☑	☑	Supported ¹
☐	☐	Not supported by the specified version of SmartStart.
☑	☑	HP BladeSystem servers (BL series) utilize the software contained in the HP ProLiant Support Packs (PSPs) ² .
☑	☑	SmartStart supports deployment of the server only. It does not deploy the full cluster solution. Click here to learn more about the HP Clustering Solution .
☑	☑	SmartStart versions 5.50-6.xx support software updates only. Not supported by SmartStart 7.xx or greater.

- 1 1 Supported indicates:
 - an Assisted Path OS Installation is supported on the specified server (when the OS is supported on the server. Refer to the [ProLiant OS Support Matrix](#)).
 - Server maintenance is available for the specified server.
- 2 2 HP BladeSystem servers (BL series) utilize the software contained in the HP ProLiant Support Packs (PSPs). PSPs are available on the SmartStart CD.

ProLiant Essentials [Rapid Deployment Pack](#), [SmartStart Scripting Toolkit](#) and [SmartStart 7.xx](#) deploy BladeSystem servers. SmartStart 7.00 or later provides assisted installation support for ProLiant BL servers by utilizing the I/O port with an attached USB CD-ROM device. SmartStart is not delivered standard with these servers, but can be a useful addition to RDP - the recommended deployment solution for BladeSystem servers. The CD can be used to create a server profile that can easily be copied and redistributed via RDP.
- 3 3 No Assisted Path OS installation from SmartStart 6.xx or 7.xx to these servers. Obtain the latest software from either of the following locations:
 - the Software and Drivers download facility by inserting and browsing the SmartStart 6.xx or later CD from any workstation.
 - the online [HP Software and Drivers](#) download site.
 For server deployment on these systems use SmartStart 5.50, available for order or free download at: www.hp.com/servers/smartstart.

For the ProLiant Supported OS Matrix please visit:

www.hp.com/go/supportos

Supported by SmartStart 5.50 and the following ProLiant Support Packs (PSPs).¹

- ProLiant Support Pack for Microsoft Windows Server 2003
- ProLiant Support Pack for Microsoft Windows 2000
- ProLiant Support Pack for Microsoft Windows NT 4.0
- ProLiant Support Pack for Novell NetWare
- ProLiant Support Pack for Linux

Supported by SmartStart 5.50 and the following PSPs.¹

- ProLiant Support Pack for Microsoft Windows Server 2003³
- ProLiant Support Pack for Microsoft Windows 2000
- ProLiant Support Pack for Microsoft Windows NT 4.0
- ProLiant Support Pack for Novell NetWare

SmartStart supports deployment of the server only. It does not deploy the full cluster solution. Click here to learn more about the [HP Clustering Solution](#).

Not supported by SmartStart. Refer to the Compaq ProLiant DL590/64 Server Support Software Release 1.0 for support.

Supported^{1,4}

Supported by SmartStart 5.50 and the following PSPs.¹

- ProLiant Support Pack for Microsoft Windows Server 2003
- ProLiant Support Pack for Microsoft Windows 2000
- ProLiant Support Pack for Microsoft Windows NT 4.0
- ProLiant Support Pack for Novell NetWare

These retired servers are supported by SmartStart 5.50 and the following PSPs.^{1,2}

- ProLiant Support Pack for Microsoft Windows 2000
- ProLiant Support Pack for Microsoft Windows NT 4.0
- ProLiant Support Pack for Novell NetWare

Blade servers utilize the software contained in the [ProLiant Support Packs \(PSPs\)](#).²

¹ No Assisted Path OS installation from SmartStart 6.xx or 7.xx to these servers. Obtain the latest software from either of the following locations:

- the Software and Drivers download facility by inserting and browsing the SmartStart 6.xx CD from any workstation.
- the online HP Software and Drivers download site.

For server deployment on these systems use SmartStart 5.50, available for order or free download at: www.hp.com/servers/smartstart.

² Blade servers utilize [PSPs](#). PSPs are available on the SmartStart CD. For server deployment use SmartStart 5.50, available for order or download at:

www.hp.com/servers/smartstart. [Rapid Deployment Pack](#), [SmartStart Scripting Toolkit](#) and [SmartStart 7.xx](#) deploy BladeSystem Servers. SmartStart 7.00 or later can now deploy the ProLiant BL20P and BL40P G2 servers, using the I/O port with an attached USB CD-ROM device. SmartStart is not delivered with these servers.

³ Only the Pentium III Xeon Processor version of these products are supported by the ProLiant Support Pack for Microsoft Windows Server 2003.

⁴ Supported indicates:

- an Assisted Path OS Installation is supported on the specified server (when the OS is supported on the server. Refer to the [ProLiant OS Support Matrix](#)).
- Software updates are available for the specified server.
- Server maintenance is available for the specified server.
