HP Firmware Maintenance

Please wait... Starting HP Smart Update Manager

Select Installation Host(s) ?

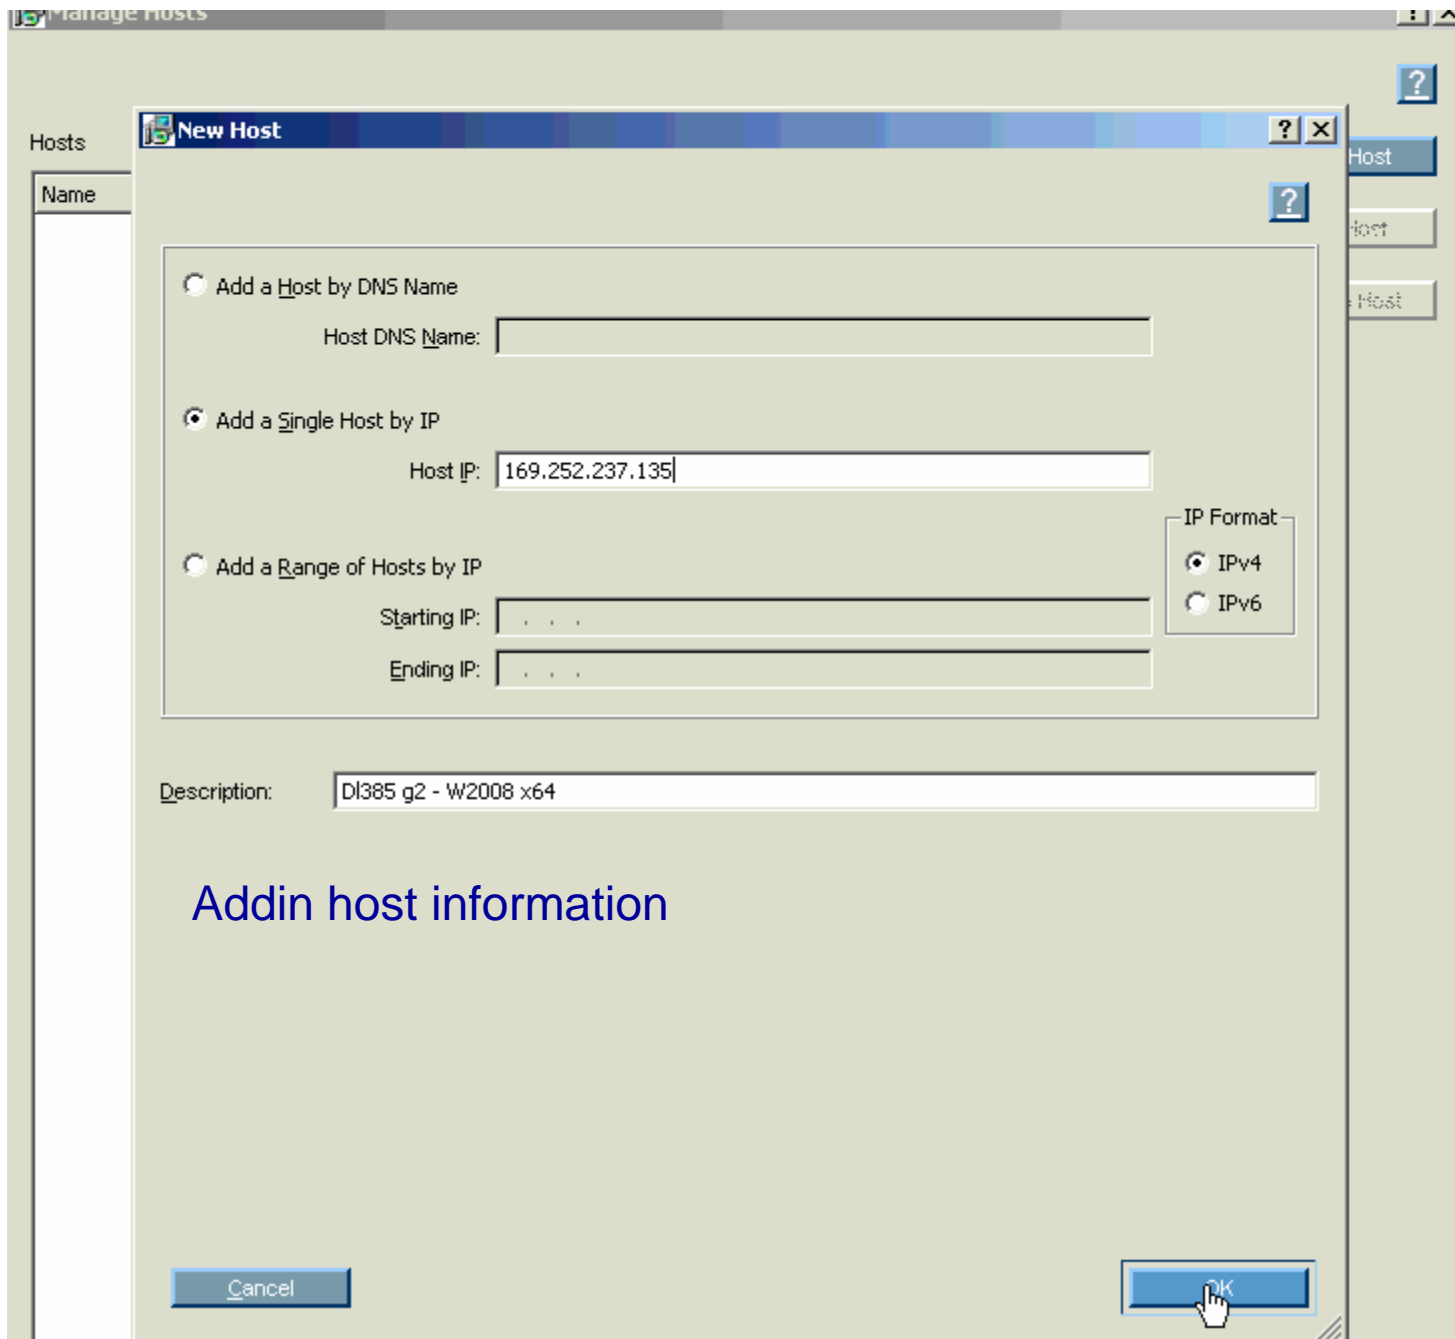

- Local Host (hewlett-bzziely)
 - Remote Host or Group (Select from List)
- [Manage Hosts](#) [Manage Groups](#)

Host Name	Type	Last Used	Description
<no remote hosts>			To add remote hosts, use the "Manage Hosts" button

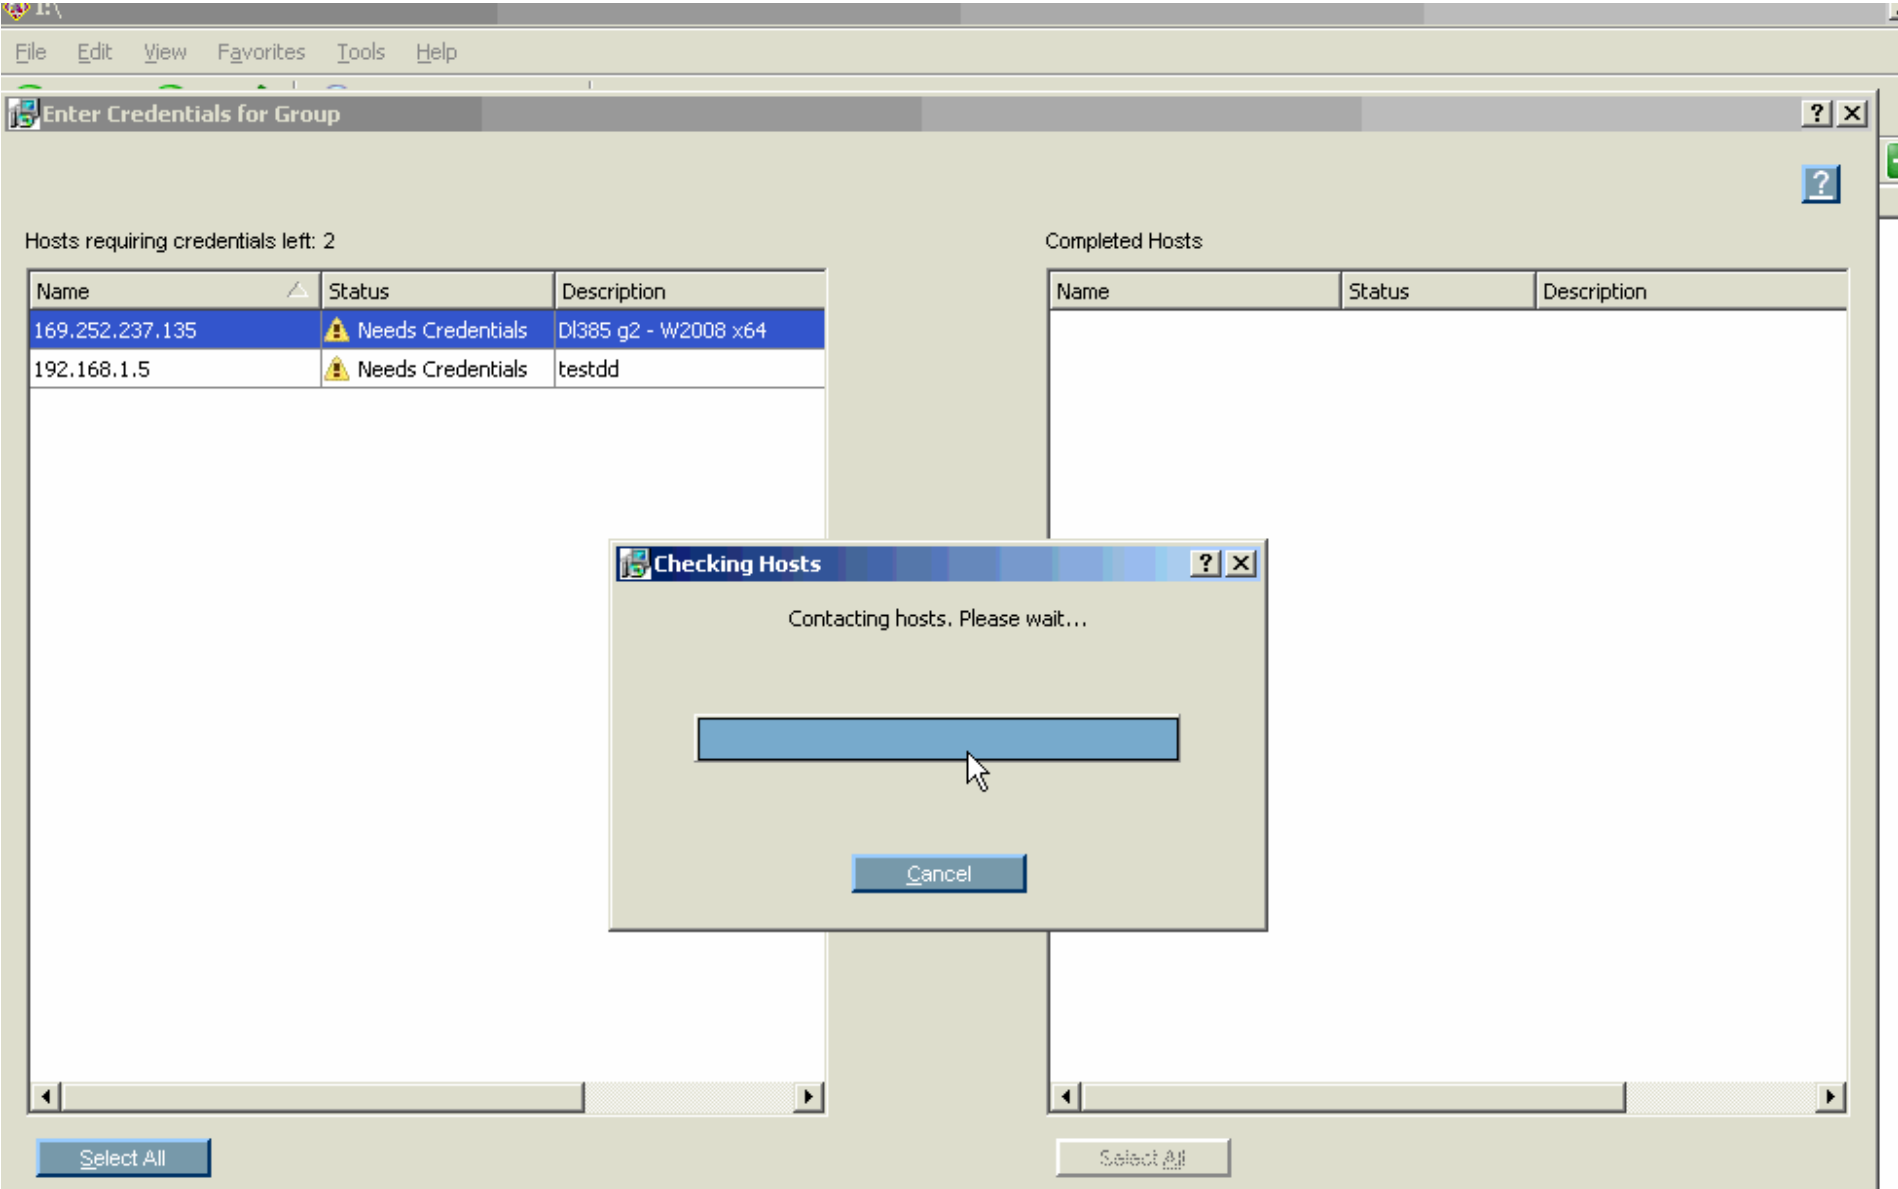

View:

Only Hosts Only Groups Both

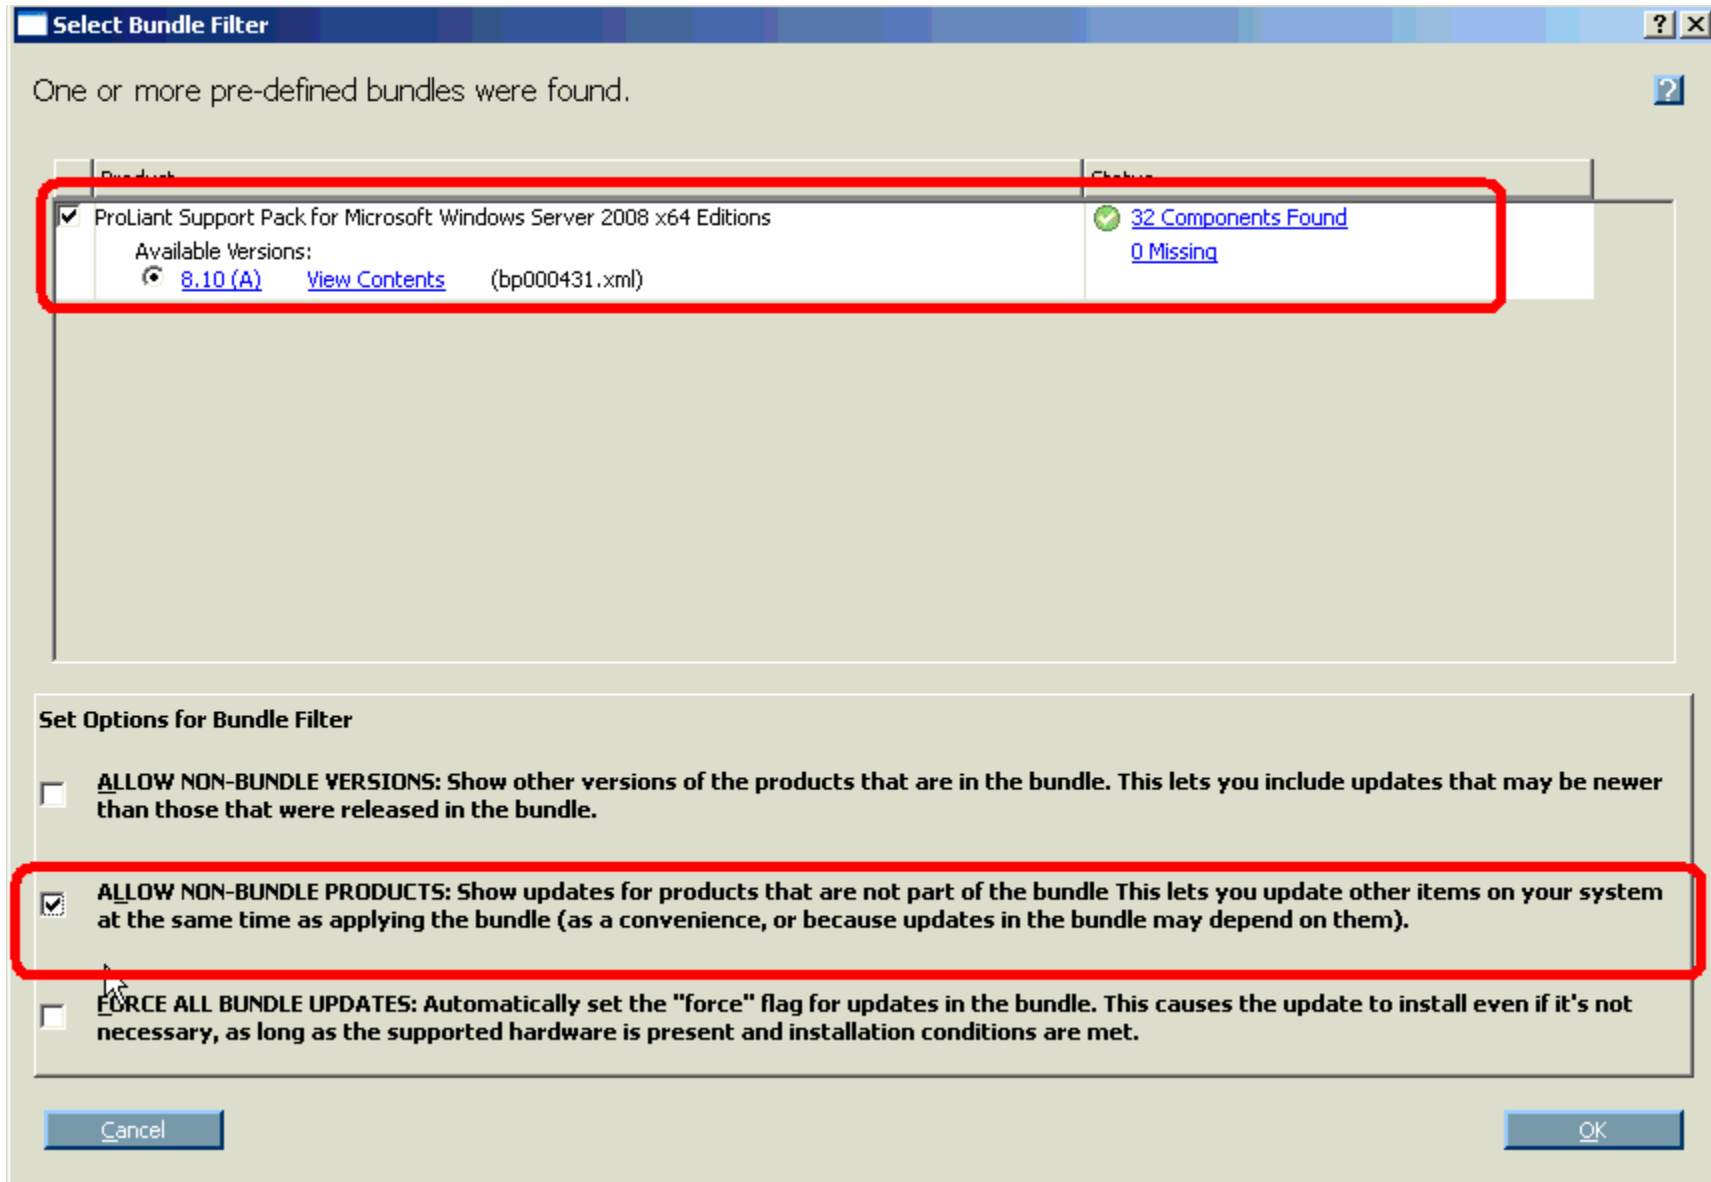

[Exit](#)

HP SUM is going to validate User name / Password for every host added to the list

Here you select Allow Non-bundle products, that will list the System ROM update in the next screen..

Here you can see PSP includes drivers but you need only the System ROM so you unmark the others updates.

HP Smart Update Manager

Select Items to be Installed

Host: 169.254.237.135 Reboot System After Installation Reboot Options

Select All Deselect All Default

Exit Install

Ready to go

The screenshot shows the HP Smart Update Manager window. The title bar reads "HP Smart Update Manager". The main header features the HP logo and the text "HP Smart Update Manager". Below the header, the text "Installation Progress" is displayed on the left, and a help icon (?) is on the right. The main content area is a light gray rectangle containing the following text:

Step 1 of 3: Build Inventory of Available Updates

Step 2 of 3: Check System for Installed Items

Step 3 of 3: Install Updates

Preparing
